MOS

Ivy

“A doctor can always bury his mistakes. An architect can only advise his client to plant ivy.”

- Frank Lloyd Wright.

Ivy is an easy-to-assemble modular wall hook system - a coat rack for people who hate coat racks and wall art for people who hate coats.

About MOS

MOS was founded in 2003 by Michael Meredith and Hilary Sample. MOS works with a variety of clients all over the world, designing private houses, institutional buildings, urban strategies, research, books, installations, furniture, and other projects that are less easily categorized. MOS strives to engage architecture as an open system of interrelated issues ranging from architectural typology, digital methodologies, sustainability, structure, fabrication, materiality, tactility, and use, as well as larger networks of the social, cultural, and environmental. This open and inclusive process drives MOS, producing and inflecting environments at a multiplicity of scales.

Dimensions:

Each ‘Y’ hook has the following dimensions:

Height:	6” (15.2 cm)
