## JACK Table Legs

Della Valle Bernheimer

### JACK Table Legs

JACK's legs were named for their resemblance to the classic children's game and were created to lightheartedly address the everyday work surface and table top. Neutral and elegant and easily secured to nearly any surface, JACK legs are now available in two new finishes: Black and White, perfect for any interior or exterior setting.

Table top not provided.

### About Della Valle Bernheimer

DB's projects are devised through research and a strong philosophical stance that no project should mimic one that came before it. While technical strategies and solutions may re-appear, each project's 'parti' is inherently related to its unique specifics and differences.
