

LERIVAL

Stock Stool

Magnus Long Design Studio

Stock Stool

Stock Stool is a product that celebrates a simple utilitarian aesthetic of everyday materials and elegant detailing. A thoughtful steel frame outlines the stool's form, while the seat and back is milled to expose the grain of the wood.

About Magnus Long Design Studio

Magnus Long Design Studio is a London-based Industrial Design office working within spatial, furniture, product and lighting design. Influenced by changing human behaviours and industrial processes the studio's work looks to simplify complexity in pursuit of elegant-solutions which are positive, understandable and relevant to their audience.
